DAVID AT KANSAS CITY.

Paragraph in Munsey's Concerning Democratic Candidate.

The following concerning Prince David's attitude at the Democratic National Convention at Kansas City is taken from Munsey's Magazine for September. The first person of royal blood to sit in the enjoyment of all the rights and privileges of a delegate was there—Prince David of Hawaii—and it was his vote at the meeting of the committee on resolutions that put the free silver plank into the Democratic platform. No one knew his views as he sat in that meeting, which lasted all night because of the opposition to incorporating the ratio plank in the platform. By the time the vote reached him it stood 25 to 24 for silver. Had he joined the minority the vote would have been tied and the proposition lost. The youngest Territory in the Union has thus, at the outset, played a conspicuous part in the history of a great party and of the nation. This is most remarkable in view of the attitude of the Democratic party on the admission of Hawaii. President Cleveland for a time prevented the annexation of the islands, and most of the Democratic members of Congress opposed it. By a strange turn of events, the first representative from the Pacific islands to enjoy the full rights of a delegate to a national political convention may change the history of the party and the nation. Had it not been for him, the 15 to 1 plank would not have been made a part of the platform, and the election may turn on that.

The Prince is a fine-looking young man, with bright, smiling eyes, even, white teeth, and a well-trained mustache. He has the address of a man of the world, and is an interesting talker. Where he sat was a silken banner inscribed on one side with strange words.

EYES.

Eyes are the lamps of the dark old world—
Lanterns of joy and woe,
Passion, remorse, love, hate, regret—
Lights that the Lord of the earth hath set
To guide us where we go.
Fearless eyes that waver not
In dread danger's face,
Glinting with a firm resolve,
Lit with bravery's grace;
Coward eyes that shrink and shun—
Furtively they glance—
Graven, supplicating looks—
Pitiful, askance;
Longing, lustrous eyes of love,
That with passion's power
Make the shortest hour a day—
Make a day an hour;
Cold, revengeful eyes of hate,
Cavernous that lie,
Taking tribute tooth for tooth,
Taxing eye for eye;
Eyes remorseful, eyes regretful,
Eyes that signal peace,
Ever haunt us, ever haunt us,
Nor will ever cease.

PUNAHOU KINDERGARTEN.

The kindergarten department of Oahu College is now open to receive pupils. Miss Claire H. Uecker, supervisor of the department, has had charge for a number of years, of several very successful kindergartens in Chicago. Miss Alleine Hitchcock has been engaged as assistant. A large room in Pauahi Hall has been pleasantly furnished for the work until the kindergarten building is erected. Miss Hitchcock will meet children at 8:30 each school morning at Central Union Church. The children will be under her supervision both going and returning from the college. Transportation will be furnished free. For further particulars address Miss Claire H. Uecker, Oahu College, Punahou.

Bailey's Honolulu Cyclery Co.,
LIMITED
227, 229 AND 231 KING STREET.

ALSEN PORTLAND CEMENT

WE HAVE JUST RECEIVED a large shipment of this celebrated Cement, which is the STRONGEST AND MOST SERVICEABLE CEMENT MADE, and will permit the admixture of a larger amount of sand and gravel, with less loss of strength than any other brand; it is therefore the most economical.

ALSEN has no equal in color, fineness and sand carrying capacity. It weighs less per bushel, measuring about 10 per cent more cement to a barrel than other brands, which very materially reduces its cost as compared with other cements, is therefore an economical cement to use, and specially adapted for fine concrete work.

The following tests, made in actual work by Col. D. C. Houston, Corps of Engineers, U. S. A., at the sea wall around Governor's Island, New York Harbor has never been equalled by other cement. It is as follows: Tensile strength per square inch—One day, 384 pounds; seven days, 600 pounds; thirty days, 818 pounds.

For sidewalks it gives the best color and the most enduring wearing surface.

A few of the large contracts in which Alsen Cement was used: Cable R. R., Baltimore, 35,000 barrels; Quebec Harbor Improvement, 20,000 barrels; Northern Pacific R. R. Bridges, 20,000 barrels.
